ANKIT YADAV

FULL STACK DEVELOPER

☎ +91 6350650966 📍 Jaipur, Vaishali Nagar ✉ ankityadav941318@gmail.com

ABOUT ME

Full Stack Developer with 8 months of experience working on live production applications. Strong expertise in backend development using Node.js, Express.js, and REST APIs, along with frontend development using React.js. Experienced in building admin panels, dashboards, education management systems, and currently working on an AI-based application involving chat and code generation. Comfortable working on real-world projects, debugging issues, and collaborating with cross-functional teams.

EDUCATION

2025 – Present
Manipal University

Bachelor of Computer Applications (BCA)

Currently pursuing Bachelor of Computer Applications with a focus on computer fundamentals, programming, and application development.

2022
Akshaya Education
Sen.Sec. School

Senior Secondary (12th – Agriculture Stream)

Completed higher secondary education with specialization in Agriculture.

EXPERIENCE

2025 – Present
CodeAstra

Backend Developer (AI Project)

Working on a live AI-based application focused on chat and code generation. Implementing backend logic for AI model integration using API keys, handling AI-powered chat flows, and integrating backend services with AI models for dynamic responses.

2024 – 2025
Intellix360

Backend Developer

- Developed and maintained backend APIs using Node.js & Express.js for a scalable Education Management System.
- Designed and implemented core modules including Academics, Leads, Accounts, Notifications, and Expenses.
- Managed student fees, EMI schedules, payment records, and attendance-based employee salary logic.
- Built and optimized Dashboard APIs to deliver real-time student, employee, and financial data.
- Integrated backend services with frontend applications and resolved production-level issues.

2023 – 2024
Maya & Brain Bucks

Frontend Developer (Project-Based)

- Worked on frontend development for a live education platform (Brain Bucks).
- Developed and maintained key pages such as Class Profile and Section Settings.
- Built responsive and user-friendly web interfaces using HTML, CSS, Bootstrap, Tailwind CSS, React.js, and Next.js.
- Integrated frontend components with backend APIs for dynamic data rendering and real-time updates.
- Improved UI/UX, fixed UI bugs, and ensured cross-browser and device compatibility.
